#### INFORMATION FOR STRANGERS.

COLOR MOO To berrow the expression of a well-known wenter, the Territory of Colorado strat thes the Rocky Rountains like I erritory of Lectoratio structure the rocky is this in the a saddle—it part of it being on their eastern fants, a part on their western flank, and a part of it being taken up by the monmains themselves. "It lies between the 37th and 41st parakels of north attentic, and the tozind and rooth arist paramets or norm argume, and the forms and fourth meridian of west long twee, being bounded on the north by Wyon ingland Nebraska, and on the east by kebraska and Kansus, and on the south by New Mexico, and mithe west by Urah. The area embraces forms nearly a square. containing about 106,475 square mi es, or 67,420,000 acres -a greater extent of country than all of Great Britain, with a co-ony or two inclused and quite as large as New York, Jerusylvania, and h assachusetts, with hew eracy thrown in for good measure.

For many reasons, Co orodo is one of the most remarkable sections of country on the face of the earth.

Though not, tengraphically it is, really, the centre of the North American Continent. Up to its giart peaks, there is a gradual slope in every side, from the estimation the east, the facine on the west, the liad of Mexico on the south, and the confirms of the Polar Sea on the north. The dwellers on its "plaus" or lower lands, dve. on the average, about a suite store the level of the seas whilst those who live in its "mountain towns," are lifted still nearer heaven.

Its scenery is magnificently grant. Its climate is deli-ciously cheering and healenfu. The elexy air and the bright sunshine, which com mully diaracterize it, act like a train uson the system, invigorating the bedily nowers and inducing constant "good spirit." The dryness and purity of the atmosphere r neer it especially suitable for such as are of consemptive or astronatic tendencies, or suffer from any affection of the throat or lungs; such unless the lisease has o stained too firm a grip—are almost certain to regain health and strength.

The resources of the country are a most limitless and in-

Its mountains are seamed and streaked with precious wealth of all kines - gold and si ver, copper and lead, coal

Cradled without brawny arms and lying at their ontspread thet, are peaceful valleys, wherein the farme raises crops of rien abundance. Owing to the smill rainful, irriook over farm papers, ... just say a gama is nicestry to the convention of tak soil; but this

### EL TASO COUNTY.

El Pasa County as one If the centra countries of the Territtery and embrades a fair state of its principal physical characteristic—mountain, valley, and paid. Along its northern border stretches the Great Colorado. Divide, a pine-covered mountain -pin, which takes is name rom the fact that it separates the encions of country tributary to the chief rivers of the Terraccy, the Platte in toe north and the Arkansas in the sout. I From the "Divide" toe county has a continua slope routsward, its soursern bouncary being eighteen riles north of the Arkansas, the nouncary using eigenees may norm in the Arkansas, the distance from north to south the eing about forcy two miles. This southward to re-expose a the whole of the county, like a garden wal, to the first sunlight the a marked effect upon its climatic characteristics. The cistance from the easern noundary of the county to the foot of the mountains, is about forty miles, and peyond that, the county embraces about thirty miles of mountainous occurs to making the total width about seventy miles. The area try, making the total wides about seventy miles. The area includes about 1,035,000 acres of which upwards of 34,000 acres has been "entered."

Though Pice's Peak-tre great focal point of the gold excitement which first brong it Colorado no notice—is situated in the county, there are few, if any, known what ble deposits of the precious metals; hence, E Peso county has no place amongst the mening counties of the Torritory. It has, however, the advantage of a marke; in the mining districts to the west which are reached by the le Pass. These mining districts are rapidly growing into great importance, being amongs: the richest ir the Territory, and will cause a large demand for agricultural and other products.

Most of the agricultural land which can be watered directly—that is, by discoes taken out of he creeks—is already taken up, and such and is now worth from \$12 to \$20 per acre. Experiments, however, wi shortly be made he matter of artesian wells, and, if they move success ful, thousands of acres of the rost tempting land-still open for pre-emptior - will be made available for irrigation and cultivation. Scattered through the recuntains are numerous small pateres, it wasters, on which grains and vegeth ies, of the first quality, can be raised to even greater advantage than in the lower valleys.

In like manner, most of the and, available for stock ranges, having water upon it, has been taken up, any ranges, a command from \$300 to 33,000. There can be no doubt, however, that almost anywhere on the plains, well a company to the plains, well a company to the plains. could be sunk at a small expense, from which water cou could be sink at a small expense, from which water could be drawn by wincing ils or other means. Meccasity is not yet driven the people to invention, but will do so stre long, as every succeeding year makes more and market the act that that country which has been regarded as valueless is in reality of the most valuable character, when a little troub a is taken to aid. Name by the centurious of are

The progress of the Stock. Attrests of the county may be gathered from the oblowing figures taken from the Assession's reports for 1871 and 1372: In the former, year there were 779 horses, 300 mules, 51724 cows, 2,321 oxen, 3.022 steep, and 336 swine. In 1872, evere were gos horses, go mules, 6,986 cows, 1,145 oxer, 6,536 ca ves, 53,314 sheep, and 363 swine. Last year, the wool-crop of the county amounted to 174,812 pounds.

The sumper Trace is an important part of the business of the county, there being fourteen mids constantly edgaged in it, and more timeer, and in El Zuso county then in any other county in the foretory.

### COLORADO SPRINGS.

The town o Coloraco Springs is situated in the centre of 5. Paso courty, at a point where the honument freeld unites with the fontaine qui soulle, and where the free Pass opens upon the plant. I is a principal station on the Denverant Rio Grance,

Railway, seventy-six cities sout 1 of Jenver (the metroof lis of the "erritory), and forty two miles north of hie so. The town takes its name mont reamerous vanuable mines-I he sown takes us mane moin numerous variable mines, al springs in the immediate reign opthoid. The most important of these are grouper affected shout five railes to the west, in a beautiful glong to which has been given the name of A animu. These are the celebrated "Dolling name of which, years ago, were made known to that Springs," which, years ago, were made known to that world by Fremont, Tuxton, and other writers. Youngely they were visited on account o their medicinal virtues by the native tribes of heims, who regarder them as appearantly becomes caused by the cirect action of his Great Spirit. A attentione, convicts tarring the circular Great Spirit. A atter times, rounitstatring the Circular ty of acress to them, their finds has attracted large numbers of invalidy nations to ava hemselves of the heading waters. During last year, large times of money have been expended in laying out and adorning the ground in their neighborhood; a tandsome, commoditude and combining the hotel has been built, both houses have been fitted trapped many other conveniences provided. Now hast there and many other conveniences provided. famous springs are so easily accessible, and that every Servision has been made for the comfort of visitors, vierely Servision has been made for the comfort of visitors, vierely can be no don't that a test years will suffice to make tem can be no construct a tea have a some matter and matter and matter a second to them each, here in the part and matter a matter and m purposes, being it by Tenevice in remanders, skin-diseases, general ceptain, and manerous other arments which we need not cattle of the

In addition to these wonder in springs, some of the most remarkable and magnificent scenery on the American Con-

racing fest above sea level its none covered with show all the year. Right and left of the Peak is a long range of a Foot little. Only mountains trey would be term; in any other land, "infinitely diversible with variety of time and builties, with rocky drags and tund en bouters and smooth alopes, with comeant play of night and shade, with combant of rich and some contrast of rich and some contrast of monantain car) groves of pine netic wage orning a panorama of exceeding leasing, of which the cyanever tires.

Three miles from town is the wonderful and famous Garcen of the Gods, his which tage rocks, hattrees of feet sign, and of the most fantagie disper, and correction colors form a scene which excited as wonder or At a so

The Springs and the Scenery combined are destined of themse vest to build are a rown of considerable size and importance. Here will be a place of report—of almost untequaled attraction—mount the world over. Last year brought trousands of visious, from almost every State in the mior, and from oreign auton and each succeeding neason will bring an increasing throng; which many, who are in search or realth, have a newly chosen it as it ser permanent home, and many more will sent a here in order to secure the same inestimable boon Tax Springs and the Scenery combined are destined of

Everyting possible is being come to heighten the attractive character of a soot on which Nature has bestoved so many advantages. It is intervied to make Colorado Springs not only famous as a Sanitarium, but also as an educational centre, and a none of refined society, carge reservations have been made for schools and kincred materials and the language of the schools and kincred materials. tuitions one the 'own, a though still in its infancy, has undertaken the erection of a coaty school house. Wide streets and avenues and spacious squares have been laid on, and I somands of trees have seen planted.

Ample finds will accumulate to carry on the work of Ample finds will accumulate to carry on the work of heartifying the town of exciting public mindings, and of constructing necessary public words. The town is a Colony Town and the whole of the rolles derived from the sale of the Colony Rots and Lands, are approximately public inconvenients. The land having seen roughly in arge parcels at low rates, and being sold to colonistic. single success in the content of the content of collars single of its advanced figures, many trousands of collars will turn be devoted to be purposes named.

Persons may become colonists by purchasing certificates Persona may become cobmists by purchasing certificates of membership, which are sof four trades, according to the privileges conveyeds. \$50, \$75; \$150, \$260. A certificate entitles a member to beate certain ots and lands. These are of three certomination: "Danites, Lots," 25 feet by 190 feet, ranging in prices from \$100 to \$250 j. Residence Lots," 50 feet by 190 feet, and 100 feet by 190 feet, ranging a prices from \$50 to \$150; "whilping Tracks," of significant prices from \$50 to \$150; "whilping Tracks," of significant prices are tracts; \$100 feet, and prices from \$50 to \$150; "an acres tracts; \$100 feet, and \$150 to \$150; "the first tracts; \$150; five-acre tracts; \$150; five-acre tracts; \$150; five-acre tracts; \$150; five-acre tracts; \$150 to \$50 an acres. nore tracts \$250; ten nore tracis, \$30 to \$30 am nord; acre tracts \$250; ten acre tracts, \$30 to \$50 an acre; twenty-acre tracts, \$30 to 40 an acre; forty-acre tracts, \$30 to 40 an acre; forty-acre tracts, \$35 to \$40. A \$40 certificate to entities its roticer to located a. \$30 certificate, any residence lot; a \$75 certificate, to locate a histories and residence lot; of a axis uses to and outlying tract, only residence lot and outlying tract, only residence lot and outlying tract, provided the total value, of tractions a located does not exceed twenty a fine description. of the lance located does not exceed \$100; a \$200 certificate, to locate similar lots as the provious, but irrespective or price: he amount paid for the certificate is credited for the lost located, one the halance if the walue of the lots exceeds that of the certificate, can be used any time within twelve months of the location for of the first locabon, if more than one is made upor the same certificate.

Members may take out as many cer ificates as they please, but are bound to make one improvement that is to put to a horse, or make some convalent expenditure, or em a gertistrate, within four months of making the first ocation gerintente, within four months of making the first octation upon it. Them this being cone, and payment of the loss of mileted, deads are given conveying full lifte, with one contains, however—that no intoxicating liquors shall ever be so con such one in any premises having the chart acter of a place of sub-ic resort; a each of this condition involves for citure of the property.

The sines about the Town, of which the Co-ony possess about rologe acres, are excelently adapted for ensisting. A great somion is almost as flat as, a table, with an exceedingly slight dope, so that it can be irrigated with the atmost as flat and the atmost areas and the atmost areas. large reservents for the pur ose of storing water as an inlarge reservoirs for the juir ose of storing water as an in-surance against exceptionally dry seasons. In health, and the so are especially sintable for the cultivation of small fruits, and for these a ready market will be found. In addition to the supply required by the Town, and by the mines not for away, a company has been formed for the pursues of establishing a Cautage factory in the Town so soon as the quantity of fruit grown sing I exceed the home consumption. home grantunguou.

The progress already made by the Town, has been assured high raind. Up to discontinued, but is more than eighteen mouths from the commencer tent of the enterprise -the a have been sod certificates of membership taker out, on Most of which two los attens have been w opulation, according to the near it estimate we can brin, is heriween filten and eighten hundred. The ornin, is institutions necessar, to a spel ordered continuously, have been quickly got new norking order. There are two hurches milt, ione in course of crection, and another very shortly to be commenced, two public schools, a lyc, eum, a news mer, a postoffice, a telegraph office, a bank bree of fine arge hotels, numerous boarding houses, stores of all 1 me, well-stock al-where the luxures as well as the necessaries of life can be abusy el-livery stables, etc. The I wan has been organized with trustees and other officers, and several companies has a hean formed for the omeers, and several companies have been larged for the prosecution of important commercial undertakings—including a sessin saw-rill in active of eration, bruc-manufacture, fru r-canning, etc. In short, the basis has been well laid for growing progress and prosperity. To such, therefore, as are seeking new homes, Colorado Springs offer advantages of the highest order.
